TECHNICAL SPECIFICATIONS / REQUIREMENTS

CATEGORY 1 - INTERNATIONAL TRUCK PARTS, REPAIR AND SERVICE

**CATEGORY 2 - HEAVY TRUCK SPRING, ALIGNMENT, CHASSIS AND
REAR SUSPENSION REPAIRS AND SERVICE**

BIDDER QUALIFICATION: All bidders must be primarily engaged in the business of heavy truck parts supply and repairs for the class of vehicles specified. The vendor must have engaged in this type of heavy parts supply and truck repair work a minimum of five (5) years immediately preceding the date of the bid opening. Vendors must be able to demonstrate to the Rensselaer County Engineer that they have the necessary facilities, experience, capability and financial resources to supply the parts and to perform specified types of work in a satisfactory and timely manner.

By responding to this bid, the vendor guarantees that all work will be performed by qualified service technicians and in accordance with the best commercial practices.

The County reserves the right to inspect the bidder's facility and to perform any investigations deemed necessary to insure that competent personnel and management will be utilized in the performance of the contract

QUALITY OF PARTS AND MATERIALS: All parts and materials supplied to the Highway Department used to repair Highway Department vehicles must meet or exceed original equipment standards (O.E.M.), unless otherwise specified by the County Engineer or his designated representative.

WARRANTY: Vendors must guarantee workmanship and new parts must be covered by a standard manufacturer's warranty against defects.

VEHICLE PICK-UP/DELIVERY: Rensselaer County will deliver the vehicles requiring repair to the vendor's place of business and pick up the repaired vehicles, provided the vendor's place of business is within Rensselaer County or within a 30-mile radius of the Main Highway Garage, 124 Bloomingrove Drive, Troy, NY (Town of North Greenbush).

PARTS DELIVERY: The vendor shall provide parts delivery service to the Highway Department garage in North Greenbush on a weekly basis at no additional cost. Critical parts may be picked up by the Highway Department at the vendor's location at other times.

WORK SCHEDULING: The successful bidder must recognize the need to quickly place Highway Department vehicles back in service through priority scheduling and prompt completion of repair work.

TECHNICAL SPECIFICATIONS/REQUIREMENTS (cont'd)

CATEGORY 1 - INTERNATIONAL TRUCK PARTS, REPAIR AND SERVICE

This category covers the repair of International and other heavy trucks at the vendor's facility. The contract also covers providing International OEM parts for installation by County mechanics. Repairs at the vendor's facility include providing all required parts, lubricants and fluids, labor and materials needed to make the ordered repairs. **Spring work may be included as part of the scope of this contract when it relates to other repairs being done to a heavy truck.**

This bid establishes the two basic parameters that will be used to order and pay for International heavy truck parts and repairs:

1. Hourly rate for qualified mechanics assigned to the repair of County vehicles. This rate will be applied to all repair assignments, including field service requested by the County Engineer. Allowable hours for field repair services are portal-to-portal from the vendor's shop. In the event that overtime is authorized in making repairs to emergency response vehicles, a rate of 1.5 times the basic hourly labor rate will be paid.
2. * Percent discount from Major Fleet Price for parts provided. This rate applies to parts ordered for installation by County employees and for parts installed by the vendor's mechanics. The discount is applied to the vendor's documented cost for all parts (International and otherwise) and/or materials incorporated in completed repairs.

**** Vendors will base their pricing on published Major Fleet Price List. The entry on the bid forms will be the discount percentage applied to these prices to determine the amount that the County will actually pay for parts and materials delivered under these agreements.**

***** Vendors must provide a hard copy of the referenced Fleet price list being used.**

If the vendor chooses OPTION 1: Online subscription to Detail parts information. The vendor must list. The cost and the time period EX. (Per Month/Per Year) along with the Website Address.

Note: In all cases, a single factor (%) must be used for all parts and materials provided under any of these Bid Categories

TECHNICAL SPECIFICATIONS/REQUIREMENTS (cont'd)

CATEGORY 2 - HEAVY TRUCK SPRING, ALIGNMENT, CHASSIS AND REAR SUSPENSION REPAIRS AND SERVICE

In addition to installing and providing heavy truck springs, work done under this contract may include front end and suspension repairs needed to properly align vehicles. The successful vendor shall be equipped with full service computerized alignment equipment capable of accommodating a tandem axle vehicle. Further, the successful vendor must maintain an extensive stock of springs and be able to fabricate springs on site, if necessary. When required by highway department operational needs, a 24-hour turn around period on emergency service vehicles is required.

Work done under this contract includes heavy truck chassis and Hendrickson rear suspension repairs and service. In addition, the vendor will also provide alignment, brake work and NYS inspection work for pickup truck, truck, trailer, light and heavy equipment operated by the County Highway Department. Sample parts are listed on the Official Bid Form to compare vendor pricing; however, this list is not all-inclusive and additional parts, as required to meet the needs of the Highway Department truck fleet, are included in this bid at the same mark-up/discount percentage as shown on the Official Bid Forms.

This bid establishes the two basic parameters that will be used to order and pay for heavy truck spring installation and alignment:

1. Hourly rate for qualified mechanics working on County vehicles. In the event that overtime is authorized in making repairs to emergency response vehicles, a rate of 1.5 times the basic hourly labor rate will be paid.
2. * Percent markup for parts provided. This single rate applies to parts installed by the vendor's mechanics and parts ordered for installation by County employees. The mark up is applied to the vendor's documented cost for all parts and/or materials provided to the County or incorporated in completed repairs.

****Alternatively, vendors may choose to base their pricing on published list prices. In this case, "Cost of Parts" entered on the bidding documents will be the list price(s). The "Mark Up" entry on the bid forms will be the discount percentage applied to these prices to determine the amount that the County will actually pay for parts and materials delivered under these agreements.**

Note: In all cases, a single factor (%) must be used for all parts and materials provided under any of these Bid Items.

GENERAL - ALL CATEGORIES

The following bid specifications have been designed to compare bids submitted by potential vendors. Vendors must submit current supporting information with their bid. ***Bids submitted without the necessary verification as described in specifications will be rejected.***
